

SIPA EXAMS

Final examinations are given at the end of each term. The Projected University Examination Schedule provides a tentative guide to final examinations and is available [online](#).

The definitive schedule of final examinations is available by November 1 for the fall term and by April 1 for the spring term. Exams are scheduled according to a University-wide [Final Exam Schedule](#) available shortly after midterms. Prior to its availability, students, and faculty should consult the [Projected Exam Schedule](#). Students may access their individual exam schedules in SSOL by clicking on "Schedule," then "My Exam Schedule."

Students who have trouble locating a class on either list should contact the instructor to ensure the class has an exam.

Summer 2023 Exam Scheduling
